

COLLEGE OF EDUCATION & HUMAN SCIENCES EXERCISE SCIENCE

UNM is reaching out to inform you that our program is inviting applications for doctoral-level study in Exercise Science for the Fall semester of 2021. We are seeking motivated applicants that are a good fit for our program. The successful applicant is eligible for a one-year renewable, funded (stipend, tuition, health insurance) doctoral position. We are particularly interested in strong candidates who have an interest in the following research areas:

- Environmental Physiology (heat and hypoxia);
- Body composition
- Skeletal muscle physiology
- Exercise training protocols
- Aging and sarcopenia
- Special populations (obese, diabetics, heart failure, cancer)

We are also seeking similarly motivated and focused students interesting in starting a Master's of Science degree with an opportunity to roll those credits into our PhD program.

Please, feel free to share this information. Contact me, Ann Gibson PhD, directly (alg@unm.edu) for more information. I look forward to hearing from you!
