

SAVE THE DATE

September 22-25, 2010

ACSM Conference on Integrative Physiology of Exercise (IPE)

Eden Roc

**A Renaissance Beach Resort & Spa
Miami Beach, Florida**

- **Discovery and Application of Integrative exercise physiology: adaptation & performance**
- **Exercise metabolism: mitochondrial dynamics and substrate regulation**
- **Exercise, oxidative stress and redox signaling**
- **Cardiovascular regulation and adaptation during exercise**

SCIENTIFIC COMMITTEE

Program Chair

Scott K. Powers
University of Florida

Program Co-chairs

George A. Brooks
University of California, Berkeley
Michael Joyner
Mayo Clinic

Tom Best
The Ohio State University

Susan Bloomfield
Texas A&M

Robert Carter III
US Army, Medical Systems
Directorate

Nisha Charkoudian
Mayo Clinic

Karen Esser
University of Kentucky

Mark Hargreaves
University of Melbourne

David Hood
York University

Donna Korzick
Pennsylvania State University

Anne McArdle
University of Liverpool

Tim Musch
Kansas State University

Bente Pedersen
University of Copenhagen

Mark Tarnopolsky
McMaster University

Ron Terjung
University of Missouri

David Proctor
Pennsylvania State University

Holly Van Remmen
University of Texas at San Antonio
