

ROCKY MOUNTAIN ACSM POSTER FORMATTING GUIDELINES

RMACSM will require posters to be in landscape format. Posters should be formatted to a size of 36" high (top-to-bottom) x 48" wide (right-to-left).

Strict adherence to these guidelines is especially important this year because the poster standards may not be able to accommodate posters that are not in this format.

Every poster presented at the RMACSM should include at least the following elements:

1. Descriptive Title
2. Author Block (all authors should be listed, including professors)
3. Institution Affiliation (of all authors)
4. Classification of first author (e.g., UG, Grad, Doc)
5. Short Introduction (limited to one paragraph)
6. Methods
7. Results (should include figures and/or tables)
8. Conclusion/Summary

*** Inclusion of an abstract on your poster is optional for authors and inclusion/omission of the abstract will not affect the evaluation of the student presenter in poster judging proceedings.*
