

AMERICAN COLLEGE
of SPORTS MEDICINE[®]
Southeast Chapter

Candidate for Member at Large

Robby Robinson, MS
Liberty University

As a born and raised Mississippian, I am dedicated to serving as a Southeast ACSM Regional Chapter committee member. I enthusiastically welcome the opportunity to serve, and my experience and education have prepared me to take on this role. The Southeastern portion of the United States ranks last in nearly every health-related category, and it is my responsibility to flip the narrative. Serving on this committee will allow me to promote health and wellness in lower-income communities and to educate individuals to become healthier. As a member of the ACSM and SEACSM, I strive to contribute to the growth and success of the national organization and my regional chapter since I've always had a "will do" mindset, as seen through my research and contribution to the ACSM and SEACSM. As a member at large candidate, I bring education, research, and experience to the table, which will further promote the growth of the SEACSM and the field of Sports Medicine/Exercise Science. I believe in the aim and purpose of the organization and would like to contribute to its continued growth as a leader of the ACSM and SEACSM. Lastly, I embrace the ability to empower individuals to become healthy and happier, and I believe I can make a difference by serving the SEACSM.

David “Robby” Robinson
