

THE UNIVERSITY OF ALABAMA AT BIRMINGHAM.

UAB Tenure-Track Assistant Professor in Exercise Science

The University of Alabama at Birmingham (UAB) Department of Human Studies (<http://www.uab.edu/education/humanstudies/kinesiology>) is inviting applications from outstanding candidates at the rank of Assistant Professor in Exercise Science (9-month appointment). The individual selected for this position will have an emerging or established research agenda, teach courses in exercise science, pursue extramural funding to support program and research initiatives, mentor undergraduate and graduate students, and serve on departmental and university committees. This position has an anticipated start date of August 2024.

Position Minimum Qualifications

Candidates must have an earned doctorate in exercise physiology or a closely related field and must demonstrate an emerging or established record of research and excellence in teaching. Postdoctoral experience and experience in grant writing are strongly preferred. A competitive start-up package, shared laboratory space, and core facilities (<https://www.norc.uab.edu/corefacilities>), (<https://www.uab.edu/medicine/exercise>) are available. Preference will be given to candidates whose research builds on existing strengths in the department.

Requirements

The desired applicants will be able to work collaboratively within shared research space, and evidence of successful university teaching in kinesiology, exercise physiology, or a related discipline is required. Additionally, the ideal candidate would have research expertise in line with existing faculty in Kinesiology in the areas of nutrition, metabolism, strength and conditioning, and health promotion/preventive medicine.
