

2020 TEXAS ACSM ABSTRACT SUBMISSION DIRECTIONS AND CHECKLIST

Abstracts are limited to one typed page (see Abstract Submission Template on the TACSM website). The abstract should be formatted using the posted template (.docx format, please type directly into the template and then save to submit) and include the following elements:

1. Descriptive Title of Project
2. Authors of Project
3. Institutional affiliation of all authors
4. Classification of first author (Undergraduate, Master's, Doctoral, PIT, or Clinical)

Abstracts of experimental, observational, and meta-analytic studies *must* include data to substantiate the conclusions being drawn. Systematic reviews without meta-analyses are not acceptable. It is not satisfactory to simply describe what was found (such as, “the treatment group increased their fitness more than the control group”) or to only include statistical results (such as, “associations were significant at $p < .05$.”) The lack of inclusion of experimental data may result in the abstract being rejected.

Abstracts are **not to exceed one page**, using the formatting/text size provided on the Abstract Submission Template. Please do not use tables or figures, as these are not supported on the website text.

Note: Abstracts that do not adhere to these guidelines will be administratively rejected for publication and presentation. Scroll below for submission instructions.

- 1.) **All abstracts submitted to the website will be published** in the International Journal of Exercise Science. You may submit the same TACSM abstract for National ACSM, but for no other professional associations.
- 2.) Please submit an email to jsmith@tamusa.edu if you do **NOT** want your abstract published. These abstracts will NOT be judged.

TEXAS ACSM POSTER FORMATTING GUIDELINES

TACSM will require posters to be in portrait format. Posters should be formatted to a size of 48" high (top-to-bottom) x 36" wide (right-to-left).

Strict adherence to this requirement is especially important this year because the new poster standards will not be able to accommodate posters that are not in this format (see picture to left).

The poster must be printed on a single sheet of paper. Many universities offer this service and if your university does not, then you can contact a local FedEx Kinko's or other print shop. **NOTE: Failure to comply with these preparation guidelines will result your poster not being displayed.**

Every poster presented at the TACSM should include at least the following elements:

1. Descriptive Title
2. Author Block (all authors should be listed, including professors)
3. Institution Affiliation (of all authors)
4. Classification of first author
5. Short Introduction (limited to one paragraph)
6. Methods
7. Results (should include figures and/or tables)
8. Summary Statements

*** Inclusion of an abstract on your poster is optional for authors and inclusion/omission of the abstract will not affect the evaluation of the student presenter in poster judging proceedings.*
